

## TNT SELECTS GMC SOFTWARE

**September 18, 2008 – Leicester, UK and Appenzell, Switzerland**

TNT Document Services in the UK has chosen personalization software from GMC Software Technology to enhance its customer communications.

The fast growing business, part of the global TNT Group, has installed GMC's Communication Suite. The solution being installed includes PrintNet T for document design and composition, PrintNet PA, a business process automation and output management system, and PrintNet Transform, which will convert, repurpose and drive more value from legacy applications and their print streams.

GMC won the business against stiff competition. "We are delighted that an industry leader like TNT judged our product to be the best for their needs," commented Rhys Morgan, managing Director of GMC's UK operation. "We look forward to a continuing relationship with this progressive business."

GMC's service team will be closely involved with TNT Document Services' personnel during the implementation of the new system. "We are ready for the challenge of meeting the tight deadlines and ensuring the implementation process is as smooth and efficient as possible," added GMC's Professional Services Manager, Alun Leech.
