

## **Position: Services Consultant**

**Location: United States**

**GMC Software Technology, Inc.** has an immediate opening for a Services Consultant in our Professional Services & Support team.

As a Services Consultant, you will be responsible for delivering a wide range of services offered by GMC. GMC is looking for highly motivated, experienced candidates who are willing to work in a fast-paced environment. The ideal candidate should have experience with software or other product training, application development, and project management. Preference will be given to candidates with printing industry experience.

### **RESPONSIBILITIES:**

- Deliver software implementation services to GMC clients across North America
- Deliver onsite training for entire GMC product suite
- Provide application development services to GMC clients
- Provide onsite or remote pre-sales support to GMC Sales team
- Provide 2<sup>nd</sup> level support to GMC's Technical Support team

### **QUALIFICATIONS:**

- Excellent communication and presentation skills
- Excellent organizational and project management skills
- Ability to travel a minimum of 50% a must
- Print industry experience
- Experience with PrintNet T or other document composition tools preferred.
- C++ or other programming language experience a plus

We offer a very competitive salary and benefits package. This position is located in North America. Relocation is not required.

### **About GMC**

Setting the New Standard in personalized customer communications, GMC Software Technology's PrintNet software suite is a powerful, integrated solution for designing, composing and producing customized print and electronic documents. PrintNet software features ease of use and implementation, advanced data input and handling, platform and printer independence, and multi-channel output support for rapid application development and time-to-market advantages. GMC is a global company, headquartered in Switzerland, with offices throughout Europe, the US, Canada, Latin America and Asia. The GMC group of companies employs Carnegie Mellon Institute's Capability Maturity Model<sup>®</sup> Integration (CMMI) for total quality assurance, and is ISO 9001:2000 certified.
